EDUCATION

Bachelor of Computer Science, New York University Abu Dhabi

May 2026

Majors: Computer Science and Interactive Media, **Minor:** Applied Mathematics

Coursework: Predictive Analytics, Natural Language Processing, Database Management Systems, Linear Algebra, Statistics

EXPERIENCE

Data Engineering and AI Solutions Intern

Jun 2025 - Dec 2025

General Motors Middle East Operations

Dubai, UAE

- **Architected** regional data warehouse on **Azure Databricks** consolidating ETL pipelines from 15+ sources; developed **4 Power BI dashboards** delivering real-time analytics Sales and HR executives across Middle East operations
- **Engineered multi-LLM intelligence agent** with SQL query generation, serving **50+ subject matter experts** across 4 personas; deployed on Azure infrastructure, **reducing manual reporting time by 60%**
- **Built predictive sales forecasting model** using ensemble learning (XGBoost, Random Forest) and ARIMA on 3 years of historical data and regional socioeconomic indicators; achieved **92% accuracy** in Q4, reducing stockout incidents.

Human Computer Interaction Research Assistant

Jan 2025 - Dec 2025

Social Machines and RoboTics (SMART) Lab, NYUAD

Abu Dhabi, UAE

- **Engineered** reinforcement learning(RL) pipelines for LLMs, integrating **dynamic reward design** and scalable **LoRA fine-tuning** to improve by **17%** in **Theory of Mind** social reasoning, leveraging **Q-learning** for robust generalization.

Cloud & Machine Learning Intern

May 2024 - Jun 2024

Bespın Global, an e& Enterprise

Abu Dhabi, UAE

- **Championed** the conception and launch of a **RAG chatbot and AI agent** as a helper tool for **Microsoft Azure** grievances on company and client-specific data, elevating response efficiency by **30%**
- **Engineered** face recognition algorithms using **AzureML**, **Azure Cognitive Services** and **OpenCV**, achieving **98.5%**

Software Engineer - AI/ML Intern

May 2024 - Aug 2024

GetDeskly (formerly HelloCurve)

Hybrid (Dubai, UAE)

- **Directed** a customer grievance analysis project utilizing **LLaMA3 with LangChain**, boosting **multilingual speech-to-text** transcription accuracy by **25%**
- **Orchestrated** cross-functional **collaboration** with Engineering and Business teams to align technical implementations with business objectives, **streamlining project delivery**

Machine Learning Research Assistant

Apr 2023 - Dec 2023

eBrain Lab, New York University

Abu Dhabi, UAE

- **Investigated** and refined **CARLA-based perception algorithms**, enhancing lane detection and collision avoidance for **autonomous vehicles** by **20%** to present **Dist-YOLO v2.0**. **Developed DNNs** for object detection, depth estimation, and lane detection, balancing accuracy and efficiency using PyTorch for resource-constrained hardware

LEADERSHIP

Computer Science Major Representative, *Student Government, NYU Abu Dhabi*

Aug 2025 – Dec 2025

- **Advocated** for expanded CS course offerings and launched career preparation initiatives bridging coursework with industry skills in **DevOps**, and **open-source contributions**

President, *HackAD, New York University*

Aug 2022 – Feb 2024

- **Chaired** end-to-end logistics and communications for **16 tech and innovation events** (including the **2022 Hackathon**); executed weekly 24 LeetCode workshops engaging 300+ students to **cultivate** a synergistic tech student **community**

PROJECTS

Predicting F1 Qualifying Positions ([link](#))

Oct 2024 - Dec 2024

Python, Learn-To-Rank Models(LambdaMART, RankNet)

- **Developed** an ML ranking system to forecast F1 qualifying positions using **LambdaMART** and **RankNet**. Integrated telemetry, lap times, weather, and driver performance data from **FastF1** dataset and **Ergast API**.

E-Commerce Recommendation System([link](#))

Aug 2024 - Sep 2024

Python, Scikit-learn, Flask, NumPy, Pandas

- **Built recommendation system** using **content-based**, **collaborative filtering**, and **hybrid** models. Integrated into a **Flask** app for personalized product suggestions based on user ratings. Improved product discovery by **40%**

SKILLS

Languages

Python (NumPy, Pandas, PyTorch, TensorFlow), SQL, LangChain, Llama3, JavaScript (MERN)

Development

Databricks, Azure, Google Cloud Platform (GCP), AWS, CARLA, Kubeflow, Kafka, Docker, PowerBI, Tableau

Certifications

Certified Scrum Product Owner **CSPO®**, Certified Associate in Project Management **CAPM®**, **AZ-900** Azure Fundamentals, **AI-102** Azure AI Engineer Associate (*in-progress*)
